

Forever Garlic-Thyme®

#065

Forever Garlic-Thyme®

Nature's superfood duo in a convenient softgel.

Both garlic and thyme have long histories of use for health purposes. Ancient civilizations believed garlic would keep them healthy and strong. Ancient Greeks added thyme to their bathwater and burned it as incense, believing it had properties that granted courage. Romans would eat thyme regularly, convinced that the herb's healthful properties would protect them if they were poisoned by an enemy.

Forever Garlic-Thyme® showcases nature's super duo of nutrition. Garlic supports cardiovascular health because it contains beneficial compounds that promote healthy circulation. When garlic is cut or crushed the enzymes react to produce a powerful immune enhancing agent. With Forever Garlic-Thyme® you'll get all the benefits of a 1,000mg of garlic!

Thyme contains antioxidant compounds to fight oxidative stress and free radical damage along with saponins, which promote healthy immune function. Together, these ingredients provide a potent fuel to support your body's defenses.

The nutrition of garlic and thyme are packed into this easy to take softgel. Reach for Forever Garlic-Thyme® for an easy and convenient way to take advantage of nature's immune supporting superfoods.
