

Forever Lycium Plus®

#072

Forever Lycium Plus®

Powerful antioxidant with a licorice extract boost.

Forever Lycium Plus® is our perfectly balanced blend of ancient botanicals specifically formulated to provide your body with the best of what nature has to offer.

Lycium, also known as goji berries or wolfberries, is a fruit that dates back centuries to ancient China, where it is known as the “yin tonic.” This unassuming fruit contains an unbelievable bounty of nutrients and antioxidants shown to enhance the complexion and help maintain good vision and energy.

Licorice also tops the list as another herb with antioxidant benefits, containing more than 150 compounds shown to have beneficial effects. It's most commonly used as a complimentary herb that brings out the natural benefits of other herbs, making it a great companion for lycium.

For a modern twist on an ancient traditional herb, stock up on Forever Lycium Plus® and feed your body the “yin tonic.”
