

Forever Multi-Maca®

#215

Forever Multi-Maca®

Get the natural superfood from high in the Andes!

Forever Multi-Maca® brings you nutritional power long held secret by the Inca people. Known as the “sex herb of the Incas,” Maca is a natural superfood found high in the mountains of Peru.

For centuries Incan warriors have revered the powder derived from the Maca root. Today, clinical tests are further revealing its power, with studies indicating this substance may promote sexual desire.

Forever Multi-Maca® is designed for both men and women and features an exclusive blend of Maca and other natural ingredients, such as roots, fruit, bark and enzymes, to encourage a relaxed, positive mood. The power of Forever Multi-Maca is boosted even more by adding L-Arginine to support nitric oxide production and promote healthy circulation.

Nourish your body like an Incan warrior with one of nature’s best-kept secrets! Forever Multi-Maca® is gluten free and suitable for vegans and vegetarians.
