

Forever Kids®

#354

Forever Kids®

Delicious, advanced multivitamin for kids.

Imagine giving your kids all the vitamins and minerals their growing bodies need in a great-tasting grape chewable with no artificial flavors, colors or preservatives. You won't even need to remind your kids to take their vitamins because they'll be begging you for more Forever Kids®!

This multivitamin is specifically formulated for the nutritional needs of kids with a blend of vitamins, minerals and phytonutrients. Vitamin C helps maintain normal function of the immune system while vitamin D3 contributes to normal growth and development. Iron and vitamin B12 contribute to healthy cognitive function and development.

We've taken the nutritional value even further by including a complex blend of phytonutrients taken from raw broccoli, spinach, carrots, beets and 16 other fruits and vegetables.

Forever Kids® is safe for children two years and older (yes, they're great for adults too!) to nourish growing bodies and minds. Your kids will look forward to their tasty vitamins and you'll rest easy knowing they're getting all the nutrients a young body needs.
