

Forever ImmuBlend®

#355

Forever ImmuBlend®

Fuel your defenses with complete immune support.

Every day you are exposed to germs, bacteria and viruses. From the door handles you touch to the crowded movie theater, you are constantly being exposed to microscopic threats. Your immune system works around the clock to keep your body safe and healthy. Show your immunity some love by strengthening its defenses with an ideal blend of nature's most potent nutrients.

Forever ImmuBlend® is an all-encompassing immune support supplement with a powerful combination of natural botanicals and proven ingredients. We've combined the best of science and nature to create a blend that supports all aspects of the immune system.

What happens in your gut plays a key role in your overall health. Between 70 and 80 percent of your immune tissue is located in the digestive tract. Safeguarding your digestive health is the foundation of strengthening your immune system. That's why Forever ImmuBlend® include both Fructooligosaccharides and lactoferrin to promote healthy levels of probiotic bacteria and support immune cell growth.

But Forever ImmuBlend® delivers immune boosting power beyond the digestive system. We took a full body approach to bringing you a comprehensive array of potent ingredients. Vitamins D and C support immune cell production and cardiovascular function while maitake and shiitake mushrooms combat free radicals and strengthen immune cells.

Life can be hectic and you don't always have time to slow down. When you're out and about, be proactive in supporting your immune system and help your body fortify its defenses with Forever ImmuBlend®!
